

## We introduced BIZIT M&A at Tech Finance Asia 2019 in Singapore

2019.1.24

On January 24, 2019 we had the pleasure to be a presenter at Tech Finance Asia 2019, hosted in Singapore by TMT Finance.

The annual event established nine years ago is known as the most critical regional meeting place for top tier executives, advisers and financiers active in investment, strategy, growth and M&A across Telecom, Media and Tech in Asia.

We had the pleasure to give a 15-minute keynote speech at the event, where we introduced Japanese M&A market trends along with our global online M&A platform "BIZIT M&A" to over 250 attendees, including chief executives and key regional tech leaders, dealmakers, investors, financiers and advisors.

We also had the chance to have business discussions with many CxOs at top global companies from leading TMT industries and financial institutions as we arranged exhibition stands to introduce BIZIT M&A.

We will continue to have a presence in similar global events to involve more leading professionals and grow our BIZIT M&A to a massive community.

As we aim to achieve our vision "transforming M&As to everyone's choice of strategies," BIZIT M&A will continue to be a platform where you can explore and encounter new business opportunities across the globe.

Please contact us for any inquiries.

Sincerely,

BIZIT M&A Team
