Currently with ongoing social issues such as the shrinking population, it has significantly limited domestic growth opportunities for Japanese companies, and now they are looking to enter new markets abroad and find new drivers of growth. As a result, Japanese outbound M&A activities have been on a rise for the past 6 years, and are expected to even increase further in the coming years. As a matter of fact, Japan outweighed China in terms of outbound M&A volumes last year.

With this alliance, Tryfunds and Yamaguchi Financial Group aim to create an environment where Japanese companies can easily and efficiently expand their businesses abroad by;
